

SUMAN SOURABH

Product Designer | Interaction Design & AI-Native UX

Noida, India · +91 91550 30888 · sumansourabh9155@gmail.com · [linkedin.com/in/sumansourabh9155](https://www.linkedin.com/in/sumansourabh9155) · sumansourabh.com

SUMMARY

Product & Interaction Designer with 3+ years designing AI products end-to-end, both 0-to-1 launches and 1-to-100 scaling, across AdTech (retail-media DSP), HealthTech, and CMS, spanning discovery and user research through user flows, wireframes, interaction design, high-fidelity prototypes, design systems, and post-launch iteration. Rare edge: I ship what I design. CS + ML degree; I build in React/Tailwind and design agentic, conversational AI experiences that engineers can implement and models can actually serve. Proof: 4.6/5 usability, -68% funnel abandonment, +29% booking conversion, +50% engineering velocity from my design system.

SKILLS

Product Design: End-to-end product design, interaction design, information architecture, user research, usability testing, journey mapping, user flows & flow diagrams, wireframing, storyboarding, rapid prototyping, high-fidelity prototyping, visual design, responsive design, accessibility (WCAG)

Design Systems: Component library architecture, design tokens, Figma advanced variables, documentation & governance, design-to-code parity

AI-Native Design: Agentic & conversational UX, human-AI interaction patterns, prompt design, AI-assisted design workflows (Figma AI, Claude Code, Cursor, Lovable)

Development (design-engineer edge): React, Tailwind CSS, HTML/CSS, Python & SQL for research analytics, REST API literacy

Tools: Figma, Sketch, Miro, Jira, Linear

EXPERIENCE

Product Designer · Shyftlabs · Noida, India

Jan 2024 – Present

Own end-to-end design for the retail media and platforms portfolio (research, flows, systems, and launch), embedded with engineering through implementation.

Design System · Tonal, TryCarter, SkipTheGroomer + all products

– Architected the company-wide component library (tokens, variables, states, and documentation), adopted across every product; increased engineering shipping velocity by 50% and eliminated design-code drift.

Carter · Retail Media DSP · 1-to-100 scaling

– Led end-to-end design scaling a retail-media demand-side platform 1-to-100 with an 8-person cross-functional team, redesigning core campaign flows through user flows, wireframes, and high-fidelity prototypes; scored 4.6/5 in usability testing.

– Designed the conversational UX for an agentic AI campaign assistant (Claude API), with clarification, confirmation, and recovery patterns that cut campaign launch time from 2.5 hours to 30 minutes (5×).

– Ran user interviews and SQL funnel analysis to locate activation drop-off; redesigned the flow and reduced campaign abandonment by 68%.

– Designed a single-form multi-DSP launcher consolidating 5–6 platform workflows into one, cutting ops overhead per campaign by ~60%.

Atlas · 0-to-1 Healthcare CMS + Booking · 130-clinic ecosystem

– Designed a 6-template modular system covering clinical and marketing use cases; lifted booking conversion 29% and organic traffic 41% through structured content UX.

– Re-architected key user flows and shipped them with Claude Code, closing the design-to-development loop myself and simplifying the data-flow and API integration architecture.

FREELANCE & EARLY EXPERIENCE

UI/UX Consultant · GoDiverse · UK (remote)

Oct 2025 – Nov 2025

– Designed the supplier onboarding flow for a UK supplier-diversity SaaS platform and a one-page sales brochure used to pitch corporate brands.

Product Consultant · Raikar · E-commerce

Aug 2023 – Feb 2024

– Owned brand identity, UX/UI, and development (React, PHP, Oracle SQL) for an e-commerce launch, leading a 5-person team from concept to live storefront.

UI/UX Design Intern · Kraftbase · Design studio, remote

Jun 2023 – Aug 2023

– Shipped 20+ designs across client brands: mobile-app wireframes and mockups, marketing websites, and design-to-development handoffs.

EDUCATION

B.Tech Computer Science Engineering (Machine Learning specialization)

2024

Lovely Professional University · Jalandhar, Punjab

COMMUNITY & ACHIEVEMENTS

– Workshop designs copied 850+ times on Figma Community; a landing-page design replicated 500+ times.

– Led 3 public design seminars at LPU (150–200 attendees each), including hands-on Figma practice sessions.

– Won the Kotlin Hackathon conducted by Google for students; founded a profitable D2C bedsheet business (₹60,000 profit in the first month).
